Portfolio — [sai-chandorkar.netlify.app](#) • Mumbai, India

SUMMARY

Final-year BCA student and Full Stack Developer with 2 internships and 4 deployed production-grade applications across video streaming, e-commerce, and social media domains. Skilled in MERN stack, TypeScript, Next.js, RESTful API design, JWT authentication, Socket.io, and Agile sprint delivery. Seeking a full-stack role where I can own end-to-end modules and grow into a senior engineering position.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, Python, SQL, MySQL, PHP
Frontend: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design
Backend: Node.js, Express.js, RESTful APIs, MVC Architecture, JWT Authentication, Socket.io
Databases: MongoDB, MySQL, Firebase Firestore, Firebase Storage
Tools & DevOps: Git, GitHub, Docker, AWS S3, Postman, Figma, VS Code, Vercel, Render, CI/CD, Agile/Scrum
Concepts: Data Structures & Algorithms, OOP, System Design Basics, Component-Driven Architecture
Achievements: 300+ DSA problems solved on LeetCode / GeeksforGeeks

EXPERIENCE

Full Stack Developer Intern Sep 2025 – Nov 2025
NullClass EdTech Pvt. Ltd. *Remote*

- Built full-stack YouTube-style video streaming platform using React.js, TypeScript, Node.js, Express.js, and MongoDB across 5 Agile sprint cycles — covering JWT authentication, video upload pipelines, subscription management, threaded comments, and search.
- Designed 12+ RESTful API endpoints following MVC architecture; optimised MongoDB queries with indexing, achieving sub-200ms metadata retrieval for video, channel, and user engagement workflows.
- Participated in peer code reviews, Agile sprint planning, and CI/CD pipeline configuration on Vercel — maintained zero production rollbacks across all sprint deployments.

Frontend Developer Intern Jan 2024 – Apr 2024
Palcova IT Solutions *On-site, Mumbai*

- Developed responsive HR management interfaces using React.js, Tailwind CSS, and Bootstrap, improving usability and adoption across internal enterprise workflows.
- Integrated 10+ REST API endpoints in coordination with the backend team, resolved UI performance bottlenecks, and ensured pixel-perfect implementation of Figma design specifications.
- Built a shared React component library used across 3+ internal modules, cutting duplicate code by ~30% and reducing new feature build time by ~25%.

PROJECTS

Rydex — Full-Stack Vehicle Booking Platform *React.js | Node.js | Express.js | MongoDB | Socket.IO | Leaflet | Razorpay | Cloudinary*

- Built a full-stack vehicle booking platform with user, partner, and admin roles — featuring real-time ride tracking via Socket.IO, interactive maps with Leaflet and Photon API geocoding, OTP-verified ride flows, in-ride chat, and secure payments through Razorpay.
- Implemented a partner onboarding pipeline covering vehicle registration, document uploads, bank details, and video-KYC — with an admin dashboard for approvals and earnings monitoring, Cloudinary for media management, and a standalone Socket.IO server deployed independently for scalability.

SnapCart — Grocery E-Commerce Platform *Next.js | Node.js | Express.js | MongoDB | Socket.io | JWT*

- Built a full-stack grocery e-commerce platform featuring secure JWT authentication, dynamic product catalogue, cart and checkout workflows, and real-time order tracking via Socket.io.
- Implemented Role-Based Access Control (RBAC) for admin and customer dashboards, with REST APIs hosted on Render and the Next.js frontend deployed on Vercel.

Vybee — Social Media Platform *React.js | Node.js | Express.js | MongoDB | Firebase Storage | JWT*

- Developed an Instagram-inspired social platform with authentication, post and story feeds, reels, real-time likes and comments, and a follow/unfollow social graph.
- Integrated Firebase Storage for media handling, cutting feed load time by ~35% over direct MongoDB storage, and structured Express routes into feature-based modules for clean separation of concerns.

AI-Powered College Assistance Chatbot *React.js | Node.js | Express.js | MongoDB | NLP | REST API*

- Built an NLP-powered chatbot covering 15+ intent categories, achieving ~89% query resolution accuracy on test inputs with graceful fallback handling for unrecognised intents.
- Designed a full-stack architecture with React frontend, Express.js API layer, and MongoDB knowledge base, including an admin panel for dynamic content management.

EDUCATION

Bachelor of Computer Applications (BCA) Jul 2022 – Jul 2026
Tilak Maharashtra Vidyapeeth, Pune | CGPA: 8.5 / 10 | Expected Graduation: July 2026
Relevant coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Software Engineering

Higher Secondary Certificate (HSC) Jan 2020 – Dec 2020
I.E.S. Modern English School, Dadar (W), Mumbai | 75%

CERTIFICATIONS

Software Engineering Job Simulation | JPMorgan Chase & Co. via Forage Aug 2025
Web Development Internship Certificate | NullClass EdTech Pvt. Ltd. Nov 2025
Web Development Training & Real-Time Project | NullClass EdTech Pvt. Ltd. Aug 2025
Data Analytics Job Simulation | Deloitte via Forage Aug 2025
Data Visualisation: Empowering Business with Insights | Tata Group via Forage Aug 2025
AI For All | Intel & CBSE, Digital India Initiative Jul 2025
